Based on the author’s current affiliation and the contents of the book, this academic workpiece could be mainly targeted toward graduate students of a Master in Business Administration program.

Kurt Burneo, the author of this book is a widely recognized Peruvian economist, who is currently working as a professor and researcher at Centrum of the Pontificia Universidad Católica del Perú. Dr. Burneo holds a doctoral degree in Administration and Corporate Management from the Universidad Ramon Llull of Barcelona, Spain. He has served the Peruvian government as a Board Director of the Central Bank of Peru, President of Bank of Nation, Vice Minister of Finance, and Minister of Ministry of Production. As such, the author has the credentials and experience to write this book with sufficient academic authority,

This book is a text on the introduction to macroeconomics with practical applications in each chapter. It is written with quality, clarity, accuracy, helpfulness and accessibility of the contents of the material, all of which are in favor of graduate business students and first-time readers.

This book presents a last section that explores issues that are different from the macroeconomic ones, but that business world takes into account for decision making such as the fourth industrial revolution, that are important. This entails technological innovation revolution, like printing in 3 or 4 dimensions, nanotechnology, etc, which are changing the ways of making business around the world. This is what is unique about this book.

Presenting the theory in simple terms and accompanying with cases and articles, from different sources, are some of the main book’s strengths.
Without losing the academic rigorosity of main reference books such as Professor Blanchard’s Macroeconomics textbook and Professor Michael Peng’s Global Business textbook, Professor Burneo’s Macroeconomía para la Empresa is one of the best options for Spanish-language readers around the world in one single piece.

Instructions for Authors

Manuscript Submission and Ethical Responsibilities of Authors
Submission of a manuscript implies: that the work described has not been published before; that it is not under consideration for publication anywhere else; that its publication has been approved by all co-authors, if any, as well as by the responsible authorities – tacitly or explicitly – at the institute where the work has been carried out. The publisher will not be held legally responsible should there be any claims for compensation.

Permissions
Authors wishing to include figures, tables, or text passages that have already been published elsewhere are required to obtain permission from the copyright owner(s) for both the print and online format and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the authors.

Title page
The title page should include:
The name(s) of the author(s)
A concise and informative title
The affiliation(s) and address(es) of the author(s)
The e-mail address, and telephone number(s) of the corresponding author
If available, the 16-digit ORCID of the author(s)

Abstract
Please provide an abstract of 150 to 250 words. The abstract should not contain any undefined abbreviations or unspecified references.
Keywords
Please provide 4 to 6 keywords which can be used for indexing purposes

JEL
An appropriate number of JEL codes should be provided. This classification system is prepared and published by the Journal of Economic Literature, see https://www.aeaweb.org/econlit/jelCodes.php?view=jel

Text Formatting
Manuscripts should be submitted in Word. The submission should include the original source (including all style files and figures)

Headings
Please use the decimal system of headings with no more than three levels.

Abbreviations
Abbreviations should be defined at first mention and used consistently thereafter.

Footnotes
Footnotes can be used to give additional information, which may include the citation of a reference included in the reference list. They should not consist solely of a reference citation, and they should never include the bibliographic details of a reference. They should also not contain any figures or tables. Footnotes to the text are numbered consecutively; those to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data).
Footnotes to the title or the authors of the article are not given reference symbols. Always use footnotes instead of endnotes.

Acknowledgments
Acknowledgments of people, grants, funds, etc. should be placed in a separate section on the title page. The names of funding organizations should be written in full.

Scientific style
Please always use internationally accepted signs and symbols for units (SI units). Please use the standard mathematical notation for formulae, symbols etc.: Italic for single letters that denote mathematical constants, variables, and unknown quantities Roman/upright for numerals, operators, and punctuation, and commonly defined functions or abbreviations, e.g., cos, det, e or exp, lim, log, max, min, sin, tan, d (for derivative) Bold for vectors, tensors, and matrices.

References
Citation
Cite references in the text by name and year in parentheses. Some examples:
Negotiation research spans many disciplines (Thompson 1990) This result was later contradicted by Becker and Seligman (1996) This effect has been widely studied (Abbott 1991; Barakat et al. 1995a, b; Kelso and Smith 1998; Medvec et al. 1999, 2000).

Reference list
The list of references should only include works that are cited in the text and that have been published or accepted
for publication. Personal communications and unpublished works should only be mentioned in the text. Do not use footnotes or endnotes as a substitute for a reference list.

Reference list entries should be alphabetized by the last names of the first author of each work. Order multi-author publications of the same first author alphabetically with respect to second, third, etc. author. Publications of exactly the same author(s) must be ordered chronologically.

**Journal article**

**Book**

**Book chapter**

**Online document**

**Dissertation**
Trent JW (1975) Experimental acute renal failure. Dissertation, University of California
Tables
All tables are to be numbered using Arabic numerals. Tables should always be cited in text in consecutive numerical order.

For each table, please supply a table caption (title) explaining the components of the table. Identify any previously published material by giving the original source in the form of a reference at the end of the table caption.

Footnotes to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data) and included beneath the table body.

Figure Numbering
All figures are to be numbered using Arabic numerals. Figures should always be cited in text in consecutive numerical order.

Figure Captions
Each figure should have a concise caption describing accurately what the figure depicts. Include the captions in the text file of the manuscript, not in the figure file.

Permissions
If you include figures that have already been published elsewhere, you must obtain permission from the copyright owner(s) for both the print and online format. Please be aware that some publishers do not grant electronic rights for free and that Springer will not be able to refund any costs that may have occurred to receive these permissions. In such cases, material from other sources should be used.
